Smart Battery Camera——

Wireless Design Break Through Imagination

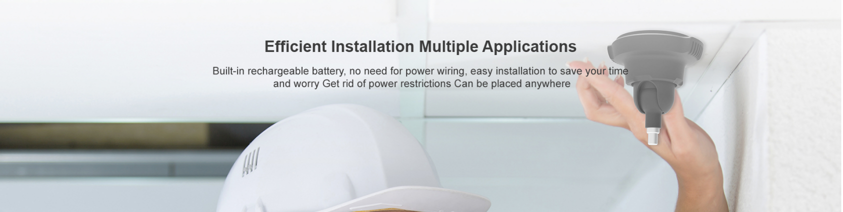
Your Eye of Freedom is in position

Twelve Function Configurations

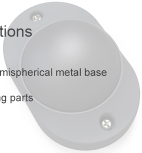
- 2K Resolution
- WiFi
- 100% Wireless
- PIR Detection
- Voice Intercom
- Waterproof and Dustproof
- Monitor Area
- Full Color Night Vision
- Rechargeable Battery
- Mobile PhoneMonitoring
- AI Smart
- 7-day Free Cloud Storage

Efficient Installation Multiple Applications

Built-in rechargeable battery, no need for power wiring, easy installation to save your time and worry Get rid of power restrictions Can be placed anywhere



Multiple Installation Options



- **Magnetic Installation**

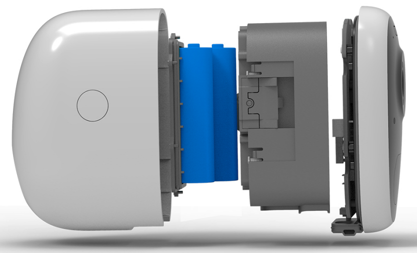
  Built-in powerful magnet with hemispherical metal base
  Adjustable camera orientation
  Easy disassembly of the charging parts

- **External Bracket**

  Connect the external bracket through the inch nut on the back of the device Omni-directional and spherical rotation
  Camera angle is adjustable

Long Battery Life Always On Guard

Built-in 5200mAh super lithium battery, battery capacity is higher than the similar product standards,
Charge for 10 hours and last for up to 6 months



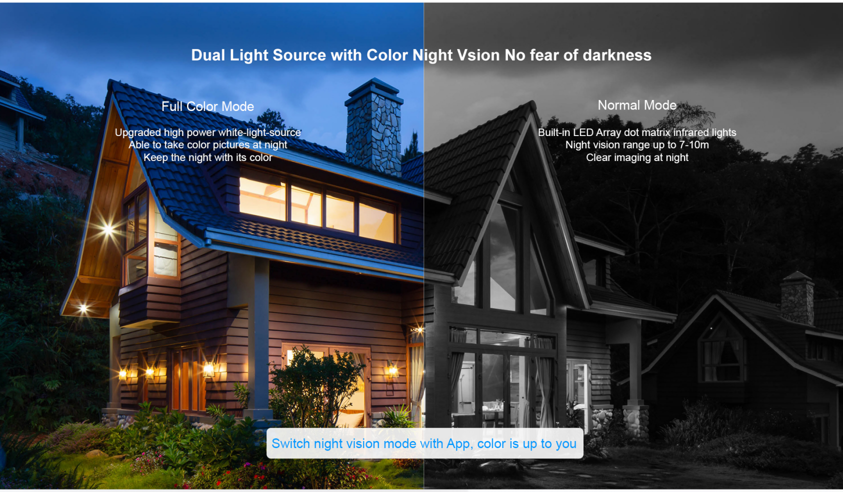
2K resolution, double the resolution of HD 1080p

High-performance 1/3"CMOS sensors with resolutions up to 1440P and detailed imaging with wide-angle lens and capture every detail.

Wide-angle lens

QHD
HD image quality

1440P Image Quality
1080P Image Quality



Dual Light Source with Color Night Vsion No fear of darkness

Full Color Mode

Upgraded high power white-light-source
Able to take color pictures at night
Keep the night with its color

Normal Mode

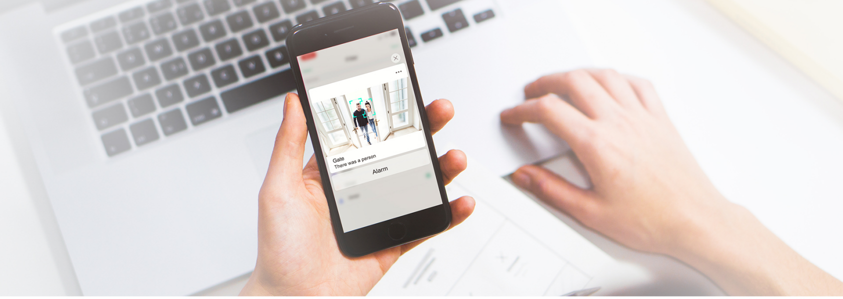
Built-in LED Array dot matrix infrared lights
Night vision range up to 7-10m
Clear imaging at night

Switch night vision mode with App, color is up to you

Mobile App

Use the mobile app to remotely view everything in your house, Easy live stream and video playback

- Multi-user Sharing
- Two-way Audio
- Universal
- Remote Control Camera
- Smart Video Playback



Advanced AI Recognition Technology
Thinking Makes It Special

Object Recognition

Artificial intelligence recognition algorithm, Intelligently distinguish human, vehicles, pets while analyzing their behaviors Refined analysis results (pass, stop or leave)
Instant push notification to the app, Keep tracking of what's happening thousands of miles away Intelligent filtering of redundant information in the cloud, send targeted push notification

- Human Recognition
- Vehicle Identification
- Pet Identification
- Parcel Inspection

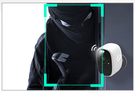
Smart Notification

Set the monitoring target category in the App, the cloud AI system will only push notification when the corresponding target is identified; no more interference.

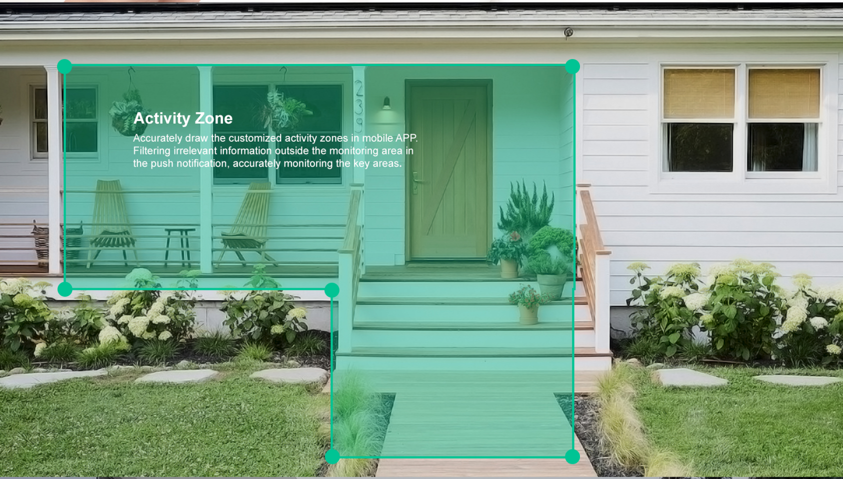
Everything in the monitoring area is under control

Push notification of pet activity, snapshot of cute moment

Set up custody items Immediate alarm as soon as they are moved

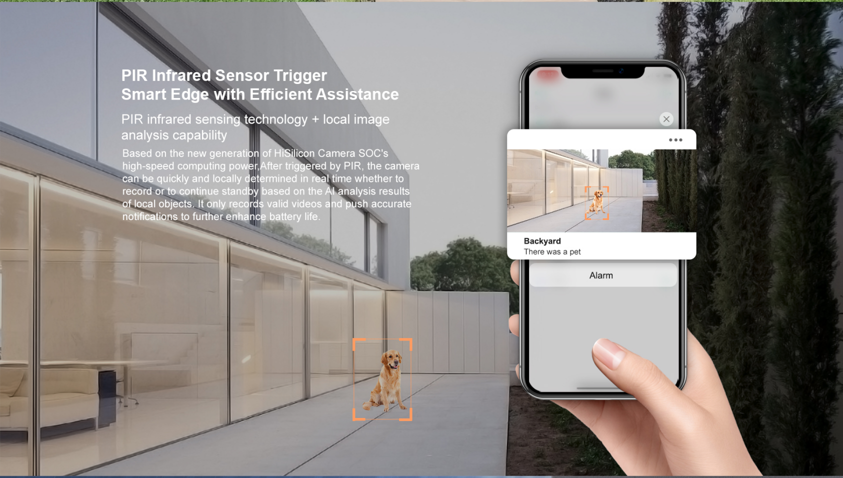


Intelligent anti-theft alarm function with real-time notification



Activity Zone

Accurately draw the customized activity zones in mobile APP. Filtering irrelevant information outside the monitoring area in the push notification, accurately monitoring the key areas.



PIR Infrared Sensor Trigger
Smart Edge with Efficient Assistance

PIR infrared sensing technology + local image analysis capability

Based on the new generation of HiSilicon Camera SOC's high-speed computing power,After triggered by PIR, the camera can be quickly and locally determined in real time whether to record or to continue standby based on the AI analysis results of local objects. It only records valid videos and push accurate notifications to further enhance battery life.

IP65 Waterproof And Dustproof No Stress for Outdoor Guards

Strict waterproof test in compliance with the international standards Seiko Manufacturing, regardless of the weather condition, keep you safe 24/7.

Waterproof and Dustproof

Two-way Audio, Live Communication

Built-in Waterproof Microphone and Hi-Fi Speakers

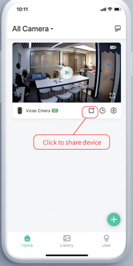
In emergency situation, you can talk remotely for real-time warning to stop the loss Live chat, regardless of time and place, experience intimate interaction

Camera Permission Management Safely Guard Family and Friends

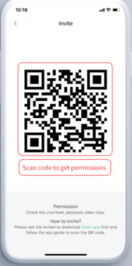
Camera can be shared with friends through the mobile APP,
Family and friends can scan the code to get camera access with easy and fast operation

Scan Code for Sharing

Camera Sharing



Click to share device



Scan code to get permissions

Permission
Check the Live feed, playback video clips.

How to invite?
Please ask the invitee to download Vicoo app first and follow the app guide to scan the QR code.

Two Storage Methods Safe Video Storage

Cloud storage

Provide up to 60 days * cloud playback storage service, Intelligent backup, Anti-theft antilost

Local storage

Micro-SD card storage supports up to 128G, Record even without network environment

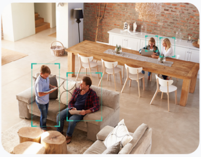
* Some features in the cloud service require additional purchase. For more details, please check the app.

FAQ

Where can this camera be used?

The battery camera is free of cable constraints, simple to install, and has IP65 protection level, which can meet the needs of various indoor and outdoor scenarios, such as doorways, living rooms, and garages. . .

Doorway



Living room

Garage

How to quickly view videos by category?

Click the filter icon on the "Album" page to set the filter conditions. Check the conditions and save to quickly sort and view the video playback.

What is the maximum length of a single video that can be recorded?

You can select the duration of single video recording in the App.
Choose a fixed duration (10/15/20s) or automatic mode to record (according to whether there is a continuous activity).
The maximum length of a single video recording in automatic mode is 3 minutes.
